Skintelligent science

Dermaceutic, the expert in aesthetic dermatology

Dermaceutic was founded in 2002 on the strong belief that **science is the skin's natural ally**. We use the best scientific expertise to strengthen and support the skin's natural powers, for faster and more effective results.

Born from a collaboration between French dermatologists, Dermaceutic is now **the number one chemical peel brand in France**, and has brought its art of formulation to the cosmeceutical industry.

Today, we partner with more than 30,000 skin professionals in more than 70 countries around the world. By working closely with these specialists, we gain vital and ever-evolving insights into different skin types, phototypes and unique patient expectations.

We elevate skincare standards using the latest scientific technology and expertise, and by delivering exceptional results for every individual's skin. Whatever the skin concern or aesthetic procedure, our mission is to provide the right combinations of actives at the most effective concentrations.

We aim to maintain our position as **the expert in aesthetic dermatology** through our passion for scientific discoveries and our insatiable curiosity for skin science, our continued strategic partnerships with dedicated and passionate distributors, and through our strong relationships with a large network of experts in the scientific community.

This is skintelligent science.

Cosmeceuticals

Scientifically designed skincare recommended by professionals. Dermaceutic's cosmeceutical range offers a smart combination of active ingredients at the highest concentrations to boost the skin's natural powers.

A cosmeceutical line divided into six essential actions that combined, address all of the main skin indications.

Purify

High-performance cleansers and exfoliants to purify the skin and remove make-up.

Protect

SPF 50+ to provide very high sun protection with age defense properties.

Stimulate

Powerful acids that work overnight to boost the skin's natural regeneration power, harmonize complexion and improve the appearance of skin imperfections.

Prevent

Innovative skincare to prevent the signs of aging, for younger-looking, healthier skin.

Restore

Intense repairing creams to nourish, soothe and restore for optimal comfort.

Target

Expert care to target specific concerns and reduce visible skin imperfections.

These six essential actions offer a comprehensive selection of products to be used at home, during peel treatments or independently as part of a personalized aesthetic protocol designed by skincare specialists.

Professional peels

Advanced and innovative chemical peels for skincare professionals to offer safe and effective protocols tailored to fit the different levels of expertise and address various skin concerns.

- **Superficial professional peels:** High-quality acid combinations to target skin concerns such as acne and premature signs of aging by penetrating only the uppermost layer of the epidermis. Designed for all types of skincare specialists to be used on a regular basis to help patients maintain healthy looking skin.
- **Medium professional peels:** Advanced and innovative acid combinations to target deeper skin concerns such as advanced signs of aging and pigmentation including melasma, senile lentigines and actinic keratosis. These more advanced solutions require the specific expertise of highly skilled skincare specialists to offer stunning results.
- **Deep professional peels:** Unique formulae for the most spectacular results. Only available for qualified and trained experts with a deep knowledge of Phenol peels

Results, not claims

We carry out extensive clinical trials with some of the most highly certified clinical bodies in Europe. These internationally recognized establishments are known for their rigorous testing and their strict conditions under expert dermatological control - a testimony to our product efficacy and safety. Through *in-vivo* and *in-vitro* studies conducted under the supervision of expert dermatologists, we assess skin reaction, tolerance and final results through biometric analysis, confocal microscopy and macro imaging analysis, as well as patient self-evaluation. Our close collaboration with first-class toxicology experts ensures the safest proven products are placed on the market.

*In vivo study for the efficacy of certain Dermaceutic peels and homecare treatments on 63 Caucasian, Asian and dark skin women. European independent clinical research organization.
